PREFACE

Citation to the Pacific Municipal Code: This code should be cited as PMC; i.e., “see PMC 3.08.010”. A PMC title should be cited PMC Title 3. A PMC chapter should be cited Chapter 3.08 PMC. A PMC section should be cited PMC 3.08.010. Through references should be made as PMC 3.08.010 through 3.08.040. Series of sections should be cited as PMC 3.08.010, 3.08.020, and 3.08.030.

Numbering system: The number of each section of this code consists of three parts, in sequence as follows: Number of title; number of chapter within the title; number of section within the chapter. Thus PMC 3.08.020 is Title 3, chapter 8, section 20. The section part of the number (.020) initially consists of three digits. This provides a facility for numbering new sections to be inserted between existing sections already consecutively numbered. In most chapters of the PMC, sections have been numbered by tens (.010, .020, .030, .040, etc.), leaving nine vacant numbers between original sections so that for a time new sections may be inserted without extension of the section number beyond three digits.

Legislation: The legislative source of each section is enclosed in parentheses at the end of the section. References to ordinances are abbreviated; thus “(Ord. 1122 § 1, 1992; Ord. 779 § 2, 1984)” refers to section 1 of Ordinance No. 1122 and section 2 of Ordinance No. 779. “Formerly” followed by a PMC citation preserves the record of original codification. A semicolon between ordinance citations indicates an amendment of the earlier section.

Codification tables: To convert an ordinance citation to its PMC number consult the codification tables.

Index: PMC Titles 1 through 24 are indexed in the PMC Index. The index includes complete cross-referencing and is keyed to the section numbers described above.

Errors or omissions: (1) Where an error has been made in the ordinance during the legislative process, Code Publishing Company adds a corrected word or phrase for clarity. Such additions do not constitute any part of the ordinance.

(2) Although considerable care has been used in the production of this code, it is inevitable in so large a work that there will be errors. As users of this code detect such errors, it is requested that a note citing the section involved and the nature of the error be mailed to: Code Publishing Company, P. O. Box 51164, Seattle, WA 98115-1164, so that correction may be made in a subsequent update.

Computer access: CPC supports a variety of electronic formats for searching, extracting, and printing code text: WordPerfect, Microsoft Word, RTF, PDF, Folio Views, HTML, XML, or ASCII formats. Contact the publisher for more information.

TABLE OF REVISED PAGES

The following table is included in this code as a guide for determining whether the code volume properly reflects the latest printing of each page. This table will be updated with the printing of each supplement.

Through usage and supplementation, pages in looseleaf publications can be inserted and removed in error when pages are replaced on a page-for-page substitution basis.

The “Page” column lists all page numbers in sequence. The “Revised Date” column reflects the latest revision date (e.g., “(Revised 7/03)”) and printing of pages in the up-to-date volume. A “7/03” indicates that the page has not been revised since the 2003 republication. This table reflects all changes to the code through Ordinance 1554, passed June 23, 2003.
